

Powering e-Commerce Globally

ABOUT US

Merchant e-Solutions (MeS) is an Internet-based e-commerce company that uses the web to deliver unrivaled innovative and proprietary payment processing services. A comprehensive suite of payment options, including over 150 International Currencies, offers merchants a “single source” approach for global processing with secure, affordable and quick to implement solutions.

POWERING FINANCIAL GROWTH THROUGH ADVANCED TECHNOLOGY & AFFORDABLE PAYMENT PROCESSING

Innovative Solutions

- PCI-compliant payment authorization and capture services for merchants
- Developed and managed in-house to enable rapid industry updates
- Support for the latest dial and IP credit card terminals.
- MES Virtual Terminal that surpasses PC-based solutions and never requires payment software updates by merchants
- MES Payment Gateway (API) that provides a simplified gateway interface that's ideal for high volume merchants and easy on your IT resources
- Web-based access to real-time authorization and batch settlement reports, plus access to daily deposits, monthly statements, and more
- Paired with browser-based tools for fast and easy boarding of new accounts and effective profitability management
- Customized web pages, sales collateral, and other sales support

Experienced Leadership

- MeS was founded in 1999 by the former management team of BA Merchant Services—one of the country's largest payment processors. With their expertise and use of in-depth industry knowledge and advanced technology, they developed superior payment solutions and unsurpassed business management tools. With the most comprehensive platform for payment processing, Merchant e-Solutions enables specialized quality control for maximum profitability and cost controls. MeS provides an extensive range of in-house services for sales support, credit underwriting, account boarding, equipment deployment and activation, 24-hour help desk, proactive risk management and chargeback processing.

Advanced Technology

- Proprietary technology platform that enables Merchant e-Solutions to process transactions affordably and securely
