

Virtual Terminal

Accept Payments from Anywhere with an Internet Connection

Merchant e-Solutions Virtual Terminal – Our Virtual Terminal is a secure web-based service that never requires you to make payment software updates. Virtual Terminal is supported by our innovative, full-service, Payment Card Industry (PCI) compliant processing platform, web-based reporting features and our experienced customer service. You can securely access Virtual Terminal through your desktop, laptop, or Smart Phone.

“Customers don’t like to keep giving credit card numbers. It is much easier now – we just look up the customer ID Number, confirm the last four digits and, using the Virtual Terminal’s customer-record feature, the credit card is billed” Jelly Belly, Cynthia King

Take Payments Instantly

Process payments in real time through multiple sales channel types with our feature rich **Virtual Terminal**:

- Mail and telephone order transactions
- Card-present or in-person transactions with our integrated card reader
- Mobile transactions through your Smartphone

Securely Manage Customer Payments

- **Create and Manage Recurring Payments** – We offer automated recurring or installment payment options.
- **Safely Store Sensitive Customer Information** – We store this information for you, eliminating data storage security risk
- **PCI Compliant** – Our intelligently designed merchant application minimizes data entry, helps keep transaction costs down and provides alerts for transactions with high-risk characteristics.

Easy Access

All you need is a web connection, you can even access using your Smartphone.

Maintenance Free

We manage system enhancements and changes, so you never have to update any payment software.

Flexible Payments

Supports credit and commercial card payments in both card-present and card-not-present environments, recurring and installment payments, as well as single and batch transactions.

Reduced Data Entry

Automatically identifies business, commercial and purchase cards so additional entry information is minimized.

24 Hour Help Desk

24 by 7 technical support provided by our experienced help desk staff.
